

VISITORS ACKNOWLEDGMENT OF RISKS

In consideration of the services of Moki Mac River Expeditions Inc., their officers, agents, employees, stockholders, and all other persons or entities associated with those businesses (hereinafter collectively referred to as "MMRE"), I agree as follows:

Although MMRE has taken reasonable steps to provide me with appropriate equipment and skilled guides so I may enjoy an activity for which I may not be skilled, MMRE has informed me this activity is not without risk. Certain risks are inherent in each element of this activity and cannot be eliminated without destroying the unique character of the activity. These inherent risks are some of the same elements that contribute to the unique character of this activity and can be causes of loss of or damage to equipment, accidental injury or illness or, in extreme cases, permanent trauma or death. MMRE does not want to frighten me or reduce my enthusiasm for this activity, but believes it is important for me to know in advance what to expect and to be informed of the inherent risks. The following describes some, but not all, of those risks:

Whitewater rapids will be encountered. I can be jolted, jarred, bounced, and shaken about during rides through some of these rapids. It is possible that I could be injured if I come in contact with food boxes, other storage containers, or other fixed equipment necessary to the operation of the expedition and the outfitting of the raft. Rafts could turn over or I could be thrown or "washed" overboard. Accidental drowning is a possibility. I can slip or fall during a hike, resulting in damage to equipment or personal injury or in extreme cases, death. Accidents can occur getting on and off the raft. Rafts and related components are slippery when wet. Exposure to the natural elements can be uncomfortable and/or harmful. I am aware that this exposure could cause sunburn, dehydration, heat exhaustion, heat stroke, and heat cramps. Prolonged exposure to cold water can result in hypothermia and in extreme cases death.

I am aware that going on a guided river trip entails risks of injury or death to any participant. I understand that the description of these risks is not complete and that other unknown or unanticipated risks may result in injury or death. I agree to assume and accept full responsibility for the risks identified therein and those risks not specifically identified. My participation in this activity is purely voluntary, no one is forcing me to participate, and I elect to participate in spite of and with the full knowledge of the inherent risks.

I acknowledge that engaging in this activity may require a degree of skill and knowledge different than other activities and that I have responsibilities as a participant. I acknowledge that the staff of MMRE has been available to more fully explain to me the nature and physical demands of this activity and the inherent risks, hazards, and dangers associated with this activity.

I certify that I am fully capable of participating in this activity. Therefore, I assume and accept full responsibility for myself, including all minor children in my care, custody and control, for bodily injury, death, and loss of personal property and expenses as a result of those inherent risks and dangers identified herein and those risks and dangers not specifically identified, and as a result of my negligence in participating in this activity.

I further agree that the Venue of any dispute that may arise out of this agreement or otherwise between the parties to which MMRE, or its agents is a party shall be either the Justice Court of Salt Lake County or State Supreme Court in Salt Lake County, State of Utah.

I have carefully read, clearly understood, and accepted the terms and conditions stated herein and acknowledge that this agreement shall be effective and binding upon myself, my heirs, assigns, personal representative, estate and for all members of my family, including minor children.
